Name of course:

SUPPORTING AND MANAGING COMMUNITY DEVELOPMENT WORKERS

Summary:

This course is aimed at individuals who are responsible for managing community development workers in the field and looks at the issues faced by both workers and their line managers.

Topics covered:

- ☞ Community development theory and process
- ☞ The history of Communities First and other relevant policies
- ☞ The role, tasks and skills of the community development worker
- ☞ Analysing community development practice
- ☞ The issues community development workers face and how they can be best supported
- ☞ The issues line managers face and options for solutions

Style:

This is a participative course and aims to use the practical experiences of participants. It gives participants the chance to discuss the issues they face and get peer support and options for the future. Currently being validated by University of Wales, Bangor.
